IMMINENT THREAT WARNING

BOLO

DATE: 03/21/2025

Updated 04/07/2025

SUBJECT: 🚨 Imminent Homeland Threat to Hospitals & US Persons 🚨

Likelihood of Attack: **HIGH** –

CT Analyst/Investigator: [Jesse Robert](#), ATO-II, CAS @SOG-ISG & American Kinetix

The CT office has received credible threat warning information that has led us to issue this imminent threat intelligence warning to the US public at large. This memo serves to provide a warning to the public on what and who is being targeted, and possible threat indicators that may signal your location is about to be attacked. Having this knowledge compels us to warn others of this threat as stated per the DNI in Intelligence Community Directive 191. As per ICD 191 which states:

✓ 'D. (U) DEFINITIONS I. (U) **"Duty to Warn"** means a requirement to warn U.S. and non-U.S. persons of impending threats of intentional killing, serious bodily injury, or kidnapping. 2. (U) Intentional Killing means the deliberate killing of a specific individual or group of individuals. 3. (U) Serious Bodily Injury means an injury which creates a substantial risk of death or which causes serious, permanent disfigurement or impairment. 4. (U) Kidnapping means the intentional taking of an individual or group through force or threat of force.

1 UNCLASSIFIED// UNCLASSIFIED//

✓ 'E. (U) POLICY I. (U) An IC element that collects or acquires credible and specific information indicating an impending threat of intentional killing, serious bodily injury, or kidnapping directed at a person or group of people (hereafter referred to as intended victim) shall have a duty to warn the intended victim or those responsible for protecting the intended victim, as appropriate. This includes threats where the target is an institution, place of business, structure, or location. The term intended victim includes both U.S. persons, as defined in EO 12333, Section 3.S(k), and non-U.S. persons.'

BACKGROUND: The CT Office Has been in contact with a patriotic group of American citizens who are all former US government or military employees, who have since left government service, in good standing, and now work in the private sector. The main reporting

COUNTERTERROR BUELLTIN

IMMINENT THREAT WARNING

BOLO

body is Sarah Adams who at one time held the position of CIA Targeting Officer. She now works for the Department of Defense and with remaining time, is an established co-author with Dave Benton (former Blackwater) of "Benghazi: Know Thy Enemy", she continues to independently investigate terror cases such as Benghazi and Abbey Gate (HKIA) and tracking Al Qaeda with TIC;. Additionally, retired US Army officer, Lt. Col. [Scott Mann](#), who spent two decades in the Army Special Forces as a Green Beret leader, serving in multiple Theaters of war. Scott's also an author of several books including "Nobody is Coming to Save You", a warrior, storyteller, and the founder of [Rooftop Leadership](#), a consulting firm and is also Host of a podcast. Some other reporting parties include [Commander Ahmad Massoud](#) of the [National Resistance Front](#) of Afghanistan. And LEGEND." [Legend](#)" is a former US Army Intel NCO and key member of [Vets4NRF](#) (National Resistance Front of Afghanistan). Legend joined the US Army at age seventeen and served on multiple deployments to the Middle East under the Department of Defense during the Global War on Terror. He now supports the NRF, the last resistance against Taliban rule in the region. [Legend](#) is risking his anonymity to bring information to light for the American people. Much in line with recently surfaced news reports, he provides an alternate account of the disastrous Afghanistan withdrawal. Most frighteningly, he reveals that the United States is sending over forty million taxpayer dollars, per week, directly to the Taliban regime. He holds dual US and Afghan citizenship. Together this group has taken it upon themselves to report the intelligence that has been developed the last few years. Each of them has appeared via podcast longform interview on the [Shawn Ryan](#) show (SRS) appearing independently and as a group. Sarah has appeared on [Battleline Tactical](#) Podcast and countless others. Scott hosts his own show called "From the Rooftops" and also some private groups on social media. These folks and other veterans have maintained a distant relationship consisting of direct verbal and cyber communications as a backchannel to Afghanistan "in- country" or "boots on ground" collectors who are channeling the information to US persons, in efforts to warn the United States. Their reporting has been vetted against different sources confirming its authenticity. According to the source, the CIA, FBI and DHS have all been informed and briefed, however since they are obviously not the sources and they have no connections to the sources, they don't seem to give Sarah's reporting much weight.

This is likely due to the Biden era analyst, CT specialist, agents etc that a majority espouse leftist ideology. They have, for the last 6 years been focusing the whole intelligence apparatus away from Afghanistan and Pakistan and shifted to focus primarily on domestic extremist threats like J6ers constantly trying to convince the public, that the biggest threat to US citizens are right winged, radical, racist neo-nazis (they accomplish this in concert with corrupted media outlets). Truth be it, those groups do pose a minor threat, but not nearly the level portrayed by these agencies' in past intelligence reporting and products. In addition, our corrupt media outlets such as CNBC, MSN, CNN, ABC, BBC, CBS, FOX, Media Matters, almost all large news outlets or

COUNTERTERROR BUELLTIN

IMMINENT THREAT WARNING

BOLO

other ultra left, Marxist, Communist outlets such as “The View” spew daily lies and propaganda to the American people. All these outlets are not only globalist controlled and owned, but they are legally permitted by law, to broadcast and print “propaganda” to US citizens. It's ironic what Elon Musks’ “DOGE” has uncovered at the State Department and USAID with regard to media financing. This was made possible by the Obama administration in 2008 via the [Smith-Mundt Act](#).

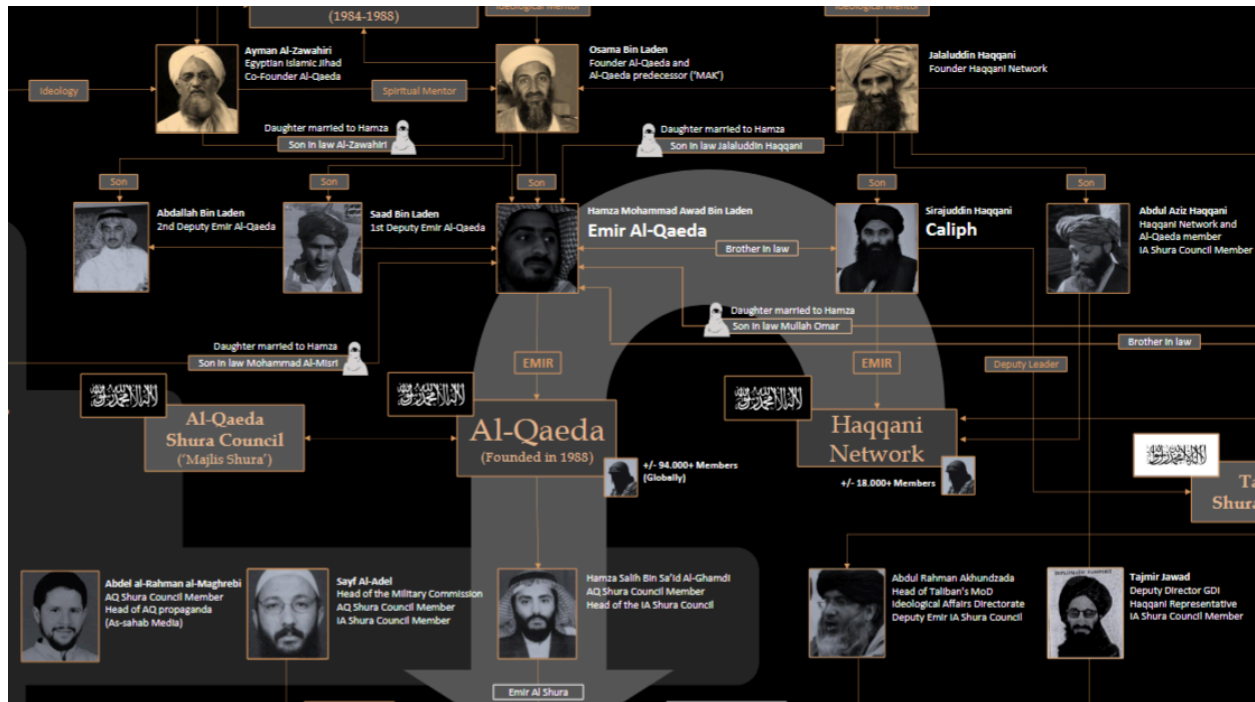

Instead of the FBI focusing on committed Jihadist and radical Islamist who have actual set plans to cause harm to the US citizenry and are already located within US borders, they instead occupied their time by persecuting Catholics, thousands of J6 defendants, and even going after parents who attended school board meetings and parents that don't agree politically with boys in girls bathrooms or men in women's sports. Looking at DHS, its former Cabinet level Secretary, Alexjandro Mayorkas, single handedly, but also with help of many, betrayed the US constitution as he facilitated illegal access to 14-20 million non-US people and permitted invasion our country, without challenge or vetting, most of which, was facilitated by DHS and APPs like “CBP-One”. On the strategic front, our intelligence apparatus is focused on the long term, or, strategic threat of China, Russia, and Iran where before, there was more focus on the middle east especially the Afghan/Pak Region, which is currently a literal “breeding ground” for Islamic foreign terrorist organizations (FTO). Terrorists are being summoned to physically train in warfare tactics, for the future global war against the West. We are now praying that Director Kash Patel (FBI), Deputy Director Dan Bongino (FBI), Secretary Kristy Noem (DHS), Director John Ratcliffe (CIA), Secretary Marco Rubio (DOS), Secretary of Defense, Pete Hegseth (DoD) and others can shake all the bad apples out of their respective area of responsibility (AOR) especially the intelligence & analysis and CT sections, get some fresh blood and old war dogs back on the trail.

WHAT WE KNOW: Al Qaeda, currently led by its Emir Hamza bin Laden and other children of the late Usama bin Laden (UBL), Abdulla and Saad, have created a new organization called the ‘**THE ARMY OF IMAM MAHDI**’ aka ‘**Mahdi Army**’ or **Islamic Army**. This group is a conglomerate, solely composed of various middle eastern, radical, Wahhabi/Salafi jihadist groups such as ISIS, Taliban, Haqqani Network, Ansaralla including Iran and a dozen others.

IMMINENT THREAT WARNING

BOLO

Many of these groups traditionally do not get along with one another. However, they have set aside their differences even differing religious beliefs like Sunni/ Shite and banded together for a common cause. That particular cause is to wage war against the West and our allies. To conquer our lands and to fully establish a global Islamic Caliphate. Specifically what this group wants is, to export jihad or to “bring the battlefield to our front yard”, in our lands where our homes are, where our children go out to play and learn. They, the Mahdi Army, are led by its Emir, Hamza bin Laden, who was thought to be killed in a US drone strike, but is alive and well. Him and his brothers Abdulla and Saad and Saif Al Adel. They seek revenge for their fathers death (UBL) , a targeted terrorist combatant, killed by US forces in Abbattobad Pakistan and again, to bring the darkness of war to the soil of our lands. Whether we like war or not, the Islamic Army is at war with us, and they are determined to destroy us. The radical religious “Islamist” who are present within US borders are entirely cut from the same cloth as Jihadist, they also seek destruction of the US and wish to see its government overthrown. Yet, the Islamist have temporarily laid down their swords to destroy us via the pen, as they conduct themselves as operatives, while living amongst us. They do this by hiding behind 501-3c religious charity organizations such as CAIR, ISNA, MSA to mask ulterior motives and intentions (see book [Muslim Mafia](#)). Many operate within the political sphere and advocate for Muslim rights and other related causes, all seemingly legitimate. However, behind closed Mosque doors

IMMINENT THREAT WARNING

BOLO

they plot western demise and many of their proceeds go directly to support terrorist operations around the world. Designated FTO Groups such as Hamas have been leveraging these charities, along with other facilitators for years, and now they are being used to strategically coordinate mass protests, riots, violence and property destruction at US universities, college campuses and other locations of strategic value. In addition to the 1500 + terrorists who have infiltrated the US during the Biden administration there are also hundreds of existing Hezbollah and Hamas operatives on US soil. It would only take one phone call from Iran to activate any portion of these terror networks and put these operatives in motion to carry out devastating terror attacks on soft targets.

This report is based in part on information originally generated by
Source (s): [American/Kinetics](#) and [@TPASarah](#) and [@BenghaziAttacks](#) and [@commandeleven](#)

SITREP:

WHO: ISIS-K (Islamic State Khorasan Province) ('THE ARMY OF IMAM MAHDI')

TARGETS: Hospitals across multiple mid-tier U.S. cities

TACTICS: Simultaneous VBIED explosions → armed attacks → hostage-taking

TIMING: Expected before Al-Q'aida's aviation/D.C. attack, likely within weeks

INTELLIGENCE SOURCE: Chatter from ISIS-K training camps in Afghanistan confirms operational planning is advanced

PREVIOUS SIGNS: Reports indicate possible pre-attack surveillance at hospitals—urgent review of security footage needed

WHY THIS MATTERS:

Hospitals are easy, high-impact targets – ISIS-K is exploiting weak security to maximize casualties and psychological terror.

Multi-city coordination is a SIGNIFICANT escalation – This is NOT a lone-wolf attack.

Precedes a larger Al-Qaida event – This operation is strategically timed to destabilize U.S. security before a bigger attack.

COUNTERTERROR BUELLTIN

IMMINENT THREAT WARNING

BOLO

KEY JUDGMENTS:

Likelihood of Attack: **HIGH** – Intelligence appears to confirm active preparation.

Method: Multi-city simultaneous strikes – Expect explosives, gunmen, and hostages.

Strategic Purpose: Maximum terror & destabilization – ISIS-K seeks to disrupt U.S. security ahead of Al-Q'aida's attack.

MOST LIKELY SCENARIO (MLCOA): - Coordinated hospital attacks occur within weeks. - **VBIED** detonations cause mass casualties. - Armed terrorists storm hospitals, take hostages. - ISIS-K claims responsibility, proving operational strength.

MOST DANGEROUS SCENARIO (MDCOA): - Simultaneous multi-city attacks on hospitals AND critical infrastructure (police stations, transport hubs, etc.). - Overwhelms emergency services, triggering nationwide panic. - Disrupts healthcare system just before Al-Q'aida's planned aviation attack.

LEAST LIKELY SCENARIO (LLCOA): - Security measures disrupt attack planning before execution. - Key operatives arrested, ISIS-K shifts focus to secondary targets.

RECOMMENDATIONS Analyze hospital security footage – Look for reconnaissance, repeat visitors, suspicious activity. Deploy law enforcement to hospitals – Increased presence at emergency rooms, trauma centers.

Restrict vehicular access – Deter **VBIEDs** with barriers, restricted zones. Emergency drills & active shooter response – Prepare staff, law enforcement, and medical teams. Prepare for an armed stand-off.

Preemptive counterterrorism raids – Monitor ISIS-K networks in the U.S., identify logistics, disrupt operations. **THIS IS A CREDIBLE, IMMINENT THREAT** While we certainly hope it doesn't materialize / law enforcement interdicts the bad guys, failure to act now could

COUNTERTERROR BUELLTIN

IMMINENT THREAT WARNING

BOLO

result in mass casualties, widespread panic, and a catastrophic national security failure. Hospitals should be secured. Intelligence sharing should increase. Law enforcement should increase alert levels and presence in / around hospitals.

What is a Mid-Tier U.S. City? Why Does it Matter for Security Threats?

In intelligence and counterterrorism, mid-tier U.S. cities are prime targets for hostile actors like ISIS-K. These cities fall between 100,000 and 500,000 residents, making them large enough to host critical infrastructure like Level One trauma centers but lacking the intense security of major metros like NYC or D.C.

Why Do Mid-Tier Cities Matter? Big enough to make headlines if attacked, but small enough to be more vulnerable. Hospitals, airports, & transit hubs exist, but without the same federal security presence as top-tier metros. Local law enforcement may not have advanced counterterrorism coordination, making emergency response slower. Lower surveillance density allows bad actors to operate without immediate detection.

Examples of Mid-Tier U.S. Cities:

Tulsa, OK (413K)
Colorado Springs, CO (489K)
Buffalo, NY (278K)
Des Moines, IA (212K)
Chattanooga, TN (181K)
Boise, ID (240K) Toledo, OH (270K)
Wichita, KS (396K)

Why ISIS-K Targets Mid-Tier Cities- Hospitals & trauma centers make high-casualty targets. Low federal presence = delayed countermeasures. Smaller airports with weaker security protocols. Symbolic targets that strike fear nationwide but avoid immediate military reprisal. Disrupt daily American life with sustained panic. [#ISIS](#) [#TerrorThreat](#) [#NationalSecurity](#) [#AXIntel](#)

SHARE to raise awareness. Retweet to keep others informed. The U.S. must not be caught off guard.
